Summary

With 8+ years of experience, specializing in web development, using the technology and SEO to drive traffic and enguage users, I've developed, build, deployed and maintain different web sites, intranet and tools, working on new and existing products, following architectural rules. Nerd enjoying to customize all of the terminal/desktop environment and keep learning new technologies and tools.

Work Experience

GSK   *Wavre, Belgium*

Senior .NET Developer   *Sep. 2016 - Feb. 2017*

- Implemented a COM add-in EXCEL. Laboratory's data for the indirect tests are encoded in an Excel file. These data must be adapted and available in an Excel Sheet in order to meet statistical service's requirements.
- Implemented an **COM add-in EXCEL** in .NET allowing secure and centralized module integration in all GSK Excel's projects.
- RSV Sytem: Excel VBA system with **secure authentification** and **centralized audit** allowing raw data import from Quant Studio software, data reduction, **reporting** and analyse on the calculated data, results can be injected both in Cristal and QC Chart softwares.

DECATHLON   *Lille, France*

Senior .NET Developer   *Mar. 2016 - Jul. 2016*

- Developed an easy-to-use **gift card module** which integrate the selling process and replace the hard to use tools in the ERP (WAZABEE). The module allow payment on the web site, gift cards selling and customisation in ERP and web.

AG INSURANCE   *Brussels, Belgium*

Senior .NET Developer   *Mar. 2014 - Sep. 2015*

- As a lead developer, involved in the full rewrite of the NewClaims project in **HTML5** and **responsive design**.
- As a lead developer, build a site for the affiliates allowing them to access their declarations in one clic. **secure EID module**, **WCF interfaces**, **COBOL transactions**.
- **Winform** app allowing to analyse the mainframe transaction messages.
- Manage **Biztalk**'s "case clients". (documents indexation)
- Display an affiliate health contract's overview based on search criteria. **Portal access**.
- Provide online access to "AG Benefits" contracts. (migration)

TAGORA / JWT Brussels   *Brussels, Belgium*

Junior / Medior .NET Developer   *Mar. 2008 - Nov. 2013*

- Development for **Dieteren** (Audi, Skoda, Seat, Volswagen): CMS based plateforms **Umbraco**, prospects tools, contests web sites and tablet apps. Different admin tools (prospect list management, **Selligent** campaign, **Analytics** dashboards).
- Implemented different contests web sites (**BEOBANK**, **VOO**, **COCA-COLA**, **CARLSBERG**)
- **Degroof** Bank: CMS (**Sharepoint** 2007) based plateforms (custom templates, jobs and library). **Module for SICAV integration** in the CMS, dynamic generation of PDF based on XML data uploaded mensually by the Bank. Videos module.
- **AWEX**: CMS (Sharepoint 2007) based plateforms (custom templates, jobs and library). Inscription module.
- **Tom and Co**: Web site development to promote weekly products. **Custom backend** for product management. Different modules (mail box, pet loss, pet finder, games ...)
